## **Sidewalk & Streetlight Improvement Project**

Greenleaf Street: Grey Avenue to Pitner Avenue

Hartrey Avenue: Greenleaf Street to Greenwood Street

July 25, 2024

---

### **Project Description**

The City of Evanston is beginning the Sidewalk & Streetlight Improvement Project which includes:

- New sidewalk/gap infill on Greenleaf between Grey/Pitner, and on Hartrey between Greenleaf/Greenwood.
- New curb & gutter on Hartrey between Greenleaf and Dempster
- Replacement of driveway aprons to meet sidewalk/ADA requirements
- Crosswalks on Hartrey between Greenleaf/Dempster, and at Greenleaf/Pitner intersection.
- Replacement of existing light fixtures with LED fixtures for improved roadway lighting levels
- Planting of trees to replace those that need to be taken down to construct the sidewalks

### **Project Schedule:**

The work is expected to start the week of August 05, 2024 and be substantially completed by November, 2024, weather permitting. Some existing sidewalks/crosswalks will be closed as needed until the work is completed. At areas where parking needs to be restricted for construction, No Parking, signs will be posted 48 hours prior to the start of work. The construction activities will create some inconveniences for the abutting residents and businesses, but every effort will be made to minimize these issues. Any irrigation sprinkler system in the parkway should be identified and marked with a flag by the property owner prior to the start of construction to prevent damages to the private system.

### **Contractor**

The contractor for this improvement project Alliance Contractors, Inc., (1166 Lake Avenue, Woodstock, IL 60098). The contractor is contractually responsible for the means and methods of the work.

### **Project Monitoring**

The City has retained Singh & Associates, Inc, consulting engineering firm to monitor the project. If you have any questions or concerns during construction, please contact the Resident Engineer, Terry Haynes, at (708) 915-9253. Questions about the project in general should be directed to Rajeev Dahal, Senior Project Manager at 3-1-1 or (847) 448-4311.
