## Fire Station 5 Metal Panel Replacement

April 14, 2025

---

### Project Description

The City of Evanston will be replacing the metal panels on Fire Station 5. This repair will ensure that Fire Station 5 remains watertight and energy efficient for the life of the building. The new panels will have the same aluminum finish with a slightly altered panel layout to provide a significantly more robust enclosure.

### Project Schedule

This project is anticipated to begin in **April 2025** and will be completed in **August 2025**.

### Contractor

The project's general contractor is Garland/DBS, Inc. (3800 East 91<sup>st</sup> Street, Cleveland, Ohio, 44105).

### Project Monitoring

The project is monitored by the City's Capital Planning & Engineering Bureau. If you have questions or concerns during construction, please contact Shane Cary, Project Manager, at **3-1-1** or **847-448-4311**.
