To Whom It May Concern:

The City of Evanston has contracted pavement patch work on areas of asphalt throughout Evanston to begin the week of July 27th. Work is scheduled for completion in four to six weeks, weather permitting.

This project will involve removing the top two inches of distressed and failing asphalt and replacing it with a fresh, smooth asphalt surface material. Once the asphalt is laid, compacted and cooled, the street will be opened and ready for traffic. This work is anticipated to improve the condition of approximately 31,000 square yards of pavement with over 125 locations across the city.

During construction, motorists should expect minor delays near work zones as flaggers route traffic around the work crews. "No Parking" restrictions for this project should be short in duration and specific to the daily work zones. "No Parking" signs will be posted 48 hours in advance of work and will be removed upon completion.

Contractor

The Contractor for this project is, Chicagoland Paving Contractors., 225 Telser Road Lake Zurich, Illinois 60047. The contractor is contractually responsible for the means and methods of the work.

City Monitoring

This project is monitored by the City's Public Services Bureau. For questions or concerns regarding this project, contact Project Management Supervisor William Reed III at 3-1-1 or 847-859-7725. Questions about general street maintenance should be directed to 3-1-1.

Sincerely,

William Reed III

Project Management Supervisor
