ComEd Vault Project on Oakton Street

Wednesday, November 18, 2026

Description

Please be advised that the City of Evanston's Water and Streets divisions will begin work on a ComEd vault project on Oakton Street in front of the Evanston Animal Shelter, 2310 Oakton St., on Wednesday, November 18.

Traffic Impacts

- The eastbound lane along the south side of Oakton Street will be closed.
- Traffic will be merged into a single lane. Appropriate traffic control measures and signage will be in place.
- The CTA has been notified of the nearby bus stop that may be minimally affected. Due to the lane configuration, buses may need to stop approximately 5 to 10 feet beyond the designated bus stop.

Schedule

Work is expected to begin on Thursday, November 18, and continue through Wednesday, November 25.

Lane closures will remain in effect through the weekend (Saturday, November 21, and Sunday, November 22). Lanes are expected to reopen on Thursday, November 26.
