PRESENT

Asteroids: Mission Extreme

Asteroid: Mission Extreme takes audiences on an epic journey to discover how asteroids are both a danger and an opportunity. The danger lies in the possibility of a cataclysmic collision with Earth; the opportunity is the fascinating idea that asteroids could be stepping stones to other worlds – veritable way stations in space – enabling us to cross the Solar System. The challenges are enormous, but a mission so extreme could ultimately lead us to protect our planet and inhabit others.

Explore what it would take for astronauts to reach an asteroid and how such an adventure could benefit humankind.

The audience will also experience the Night Sky of early Spring 2025.

Running Time Approximately 45 minutes

Presentation Date:

Saturday, March 29th at 2:00PM and 3:00 PM

Tickets are available in advance at: Starting Mar. 12th, 2025. **Adults: \$5.00 Children, Seniors, CHS Students: \$3.00**
