Subject: ILEARN Science Grades 4 and 6 and Biology Multiplication Table and Hundreds Chart

The Office of Student Assessment (OSA) recently updated the 2019-2020 Accessibility and Accommodations Guidance. This update reflects the allowable usage of a Hundreds Chart on the ILEARN Science assessments for grades 4 and 6, and allowable usage of a Multiplication Table on the ILEARN Science assessments for grades 4, 6, and Biology.

Students may utilize the non-embedded Hundreds Chart accommodation on the ILEARN Science assessment in grades 4 and 6 if noted in their Individualized Education Programs (IEP)s, Section 504 Plans, Service Plans, or Choice Special Education Plans (CSEPs). The Hundreds Chart will not be reflected in the Test Information and Distribution Engine (TIDE), and Test Administrators (TAs) must provide this non-embedded accommodation directly to students.

Students may utilize the non-embedded Multiplication Table accommodation on the ILEARN Science assessment in grades 4 and 6 and Biology if noted in their IEPs, Section 504s, Service Plans, or CSEPs. The Multiplication Table is reflected in TIDE. TAs must provide this non-embedded accommodation to students.

Students that take Indiana's Alternate Measure (I AM) may utilize the non-embedded accommodations Multiplication Table and Hundreds Chart if it is in their IEPs, Service Plan, or CSEPs as a daily accommodation. TAs must provide this non-embedded accommodation to students.

Questions regarding the use of these accommodations should be directed to Karen Davies at [KDavies@doe.in.gov](mailto:KDavies@doe.in.gov) or (317) 232-2079.
