

The New & Enhanced Lexile® & Quantile® Hub

Snapshot of What's Coming

A redesigned Lexile & Quantile Hub will be arriving this fall! Here's what to expect.

WCAG 2.1 AA Compliance

Better accessibility to support all users including those with a range of abilities that may encounter barriers to web content. These enhancements include:

- ✔ Color contrast to ensure that text and images are easily readable for people with visual impairments.
- ✔ Support for assistive technology screen readers that provide translations into spoken words or braille for people who are blind or visually impaired.
- ✔ Discernible and predictable keyboard-only interaction options that reduce cognitive load which are especially helpful for neurodivergent users.

For those individuals who need accessibility support, it will be a game changer. For users who don't need these supports, they won't even know they are there.

Streamlined Navigation, User-Centric Design

Based on user feedback, we made the Hub simpler and more user-friendly with the following updates.

- ✔ An intuitive, simplified layout that makes the tools easier and faster to locate.
- ✔ Optimized content across all devices (phone, tablet, laptop), allowing users to take the Hub on the go.
- ✔ A new Resource Center that brings together instructional materials, such as decodable passages, vocabulary lists, and math supports.
- ✔ All new tool-specific User Guides integrate support for using tools inside the Hub and inside the classroom.
- ✔ A new blog showcasing practical use cases and important topics facing teachers and parents today.

Same tools...repackaged and consolidated!

We are offering a similar suite of tools and retaining their core functionality while better organizing them for ease of use. One more positive change you'll notice: Registration will now be required to access additional features.

TOOLS + Resources	CURRENT HUB Available Today	UPDATED HUB Fall 2024

Lexile® Grade Level Charts	✓	
Quantile® Grade Level Charts	✓	
Lexile® Measures Manager	✓	Now accessed via the Support Center in the Hub.
Quantile® Measures Manager	✓	

What do you need to do to prepare for the new Hub?

We recommend you take the following three steps to prepare for the rollout of the new Hub.

- 1 While URL redirects will be in place to ensure links will not be broken, we encourage you to update your materials so that links to specific tools point to Hub.Lexile.com.
 - Updating your links to the main page, where all tools are easy to find, will ensure users will arrive at their destination now and far into the future. Please note that the messaging and resources from the Lexile.com and Quantiles.com websites will be integrated into (and redirect to) the new Hub. If you have any favorite flyers or materials from these sites, those links will also be redirected to their new home.
- 2 If you use screenshots of the Hub in your communications, prepare to update these with screenshots of the new Hub.
- 3 Add announcement messaging in your newsletters or Listserv messages to promote information about the new Hub in correspondence with staff and educators.
