The next step is to answer the required references. First choose your site type, second reference is to answer yes or no as to whether you have a CLIA waiver # (required for Binax orders) and then third reference is to state yes or no if you are reporting in RedCap. Examples of how this looks is posted below. If you have a CLIA Waiver, the number, starting with 15D, should be entered in the "Additional Reference" section.

The "Items" screen, which is next, is where you order your materials. Please reference the product listing from the Home page. Once you begin entering the item code, you will see it as an option on your screen to select.

One item is selected, hit the tab key and all the cells will populate, except for the quantity cell. Enter in your desired amount.
