

THIS WEEK'S PROGRESS

- As of Jan. 11, Kentucky had administered 130,355 COVID-19 vaccine doses – 124,349 of the first dose and 6,006 of the second – of which 108,816 doses have been administered through the state program and 21,539 administered through the long-term care facilities (LTCFs) program.
- To date, the state program has received 169,350 vaccine doses; the LTCF program has received 93,600 doses.
- Doses continue to be allocated to reach phase 1a populations.

THIS WEEK'S GOALS

- Known upcoming vaccine allocations:
 - Week of Jan. 11: Pfizer 27,300
 - Week of Jan. 11: Moderna 26,500
- LTCFs received first COVID-19 vaccines on Dec. 21. Starting this week, the second dose will begin to be administered.
- Kentucky Emergency Management and Department for Public Health will continue conversations with the Kentucky National Guard on how the Guard might assist with COVID-19 vaccination support.

THINGS TO KNOW

- The Governor said the state's goal is to administer 90% of all vaccine doses received in the state within seven days of arrival and that the newly announced additional phases provide clarity on when more Kentuckians can get the vaccine. The phases also help providers understand in what order vaccines should be administered, which is crucial if they are having challenges meeting the 90% weekly goal.
- Planned vaccination phases are:
 - Phase 1a: Long-term care facilities, assisted living facilities, health care personnel
 - Phase 1b: First responders, anyone ≥ 70 , K-12 school personnel
 - Phase 1c: anyone ≥ 60 , anyone ≥ 16 with [CDC highest-risk conditions](#) for COVID-19, all essential workers
 - Phase 2: Anyone ≥ 40
 - Phase 3: Anyone ≥ 16
 - Phase 4: Children under the age of 16 if the vaccine is approved for this age group (est. 18% KY population).
- Continue to social distance, wear a face mask in public and wash your hands, *even if you have received the vaccine.*
- Kentucky's COVID-19 hotline: (800) 722-5725.

A SHOT OF RELIEF. A SHOT OF HOPE. A SHOT OF CERTAINTY.

- The COVID-19 vaccine does more than keep you from getting sick. It will get folks all across Kentucky back to work. Get kids back to school. Get our economy back on track. As the FDA-authorized vaccines arrive, all you have to do is keep doing your part. We can't all get the vaccine at once, but we'll all get a turn. You can get all the facts at kycovid19.ky.gov.*

THANK YOU
