

Professional Learning for District and School Leaders

led by your DEL Regional Principal Support Leaders

Title: *Using the Leadership Levers Dashboard to Enhance your Action Plan* (Virtual Session)

Description: As school and district leaders, turning vision into action requires clarity, coherence, and the right tools. This virtual session is designed to support principals, district leaders, and literacy leadership teams in advancing their early literacy goals by using the Leadership Levers Dashboard.

This interactive resource connects you directly to KDE initiatives and supports that are relevant to your goals and aligned with the Read to Succeed framework.

Join us by clicking on any of the following dates or scan the QR Code that best fits your schedule to maximize the Leadership Levers Dashboard planning forward for early literacy success. These are follow up work session from our Reads to Succeed Conference sessions.

Book Study: Switch - How to Change Things when Change is Hard

Principals wield a profound influence over early literacy achievements. In their illuminating book *Switch*, Chip and Dan Heath present a framework that highlights the necessity of addressing both rational and emotional dimensions to overcome resistance within an organization.

- **Inspire Change:** School leaders can ignite transformation by sharing inspiring success stories, rather than solely relying on data, thus making the impact of literacy interventions resonate on a personal level.
- **Manageable Steps:** It is essential to break the desired changes into manageable, achievable steps, with an emphasis on small victories to build momentum.

By addressing both the practical and emotional facets of change, a nurturing school culture emerges, championing progress in reading achievement. Are you prepared to embrace the *Switch* and ignite a transformation in literacy success for your students?

All virtual sessions will be from 9:30 to 11:00 a.m. EST
