Seven times a day, someone in this country dies in a home fire. The American Red Cross has launched a nationwide campaign to reduce the number of home fire deaths and injuries by 25 percent by 2019. We're joining with fire departments and community groups nationwide to canvass neighborhoods, install smoke alarms and deliver fire prevention information in places we know have high numbers of fires.

The Red Cross is also asking every household in America to join us in taking these two simple steps that can save lives: check your existing smoke alarms and practice fire drills at home. Thus far in the Kentucky area our efforts have saved a documented 27 lives. This number is only the beginning of the number saved as the weeks, months and years go by.

Home Fire Campaign Volunteers Needed

Volunteers work in teams to assist with canvassing pre-selected neighborhoods for smoke alarms, providing fire safety education to families, and installing free smoke alarms/replacing batteries where needed. All skillsets are needed and welcome! We are also in need of volunteers who would like to assist with logistics and event management on installation days. Supplies and training are provided on site.

Visit www.soundthealarm.org and click the button for **“Volunteer”** and complete the registration form.
