

Dear community partners,

In an effort to keep you informed about construction on the new Louisville Veterans Affairs Medical Center, the U.S. Army Corps of Engineers Louisville District is happy to share details on major activities planned for the coming week.

Construction activities scheduled for the week of DECEMBER 13, 2021 include:

- Several mobile office containers are expected to be delivered to the site. They will be powered by generators and will not be hooked up to any utilities.
- Installation of the construction fencing will continue and there will also be localized topsoil removal and minor features of earthwork occurring.
- For the two weeks around the holidays, only minor work and potentially some material deliveries are anticipated.

For the most recent information on the project, please visit:

www.va.gov/louisville-health-care/programs/new-robley-rex-va-medical-center

If you have specific questions about the construction of the new medical center, please send us an email at: LOUVAMCconstruction@usace.army.mil.

These updates will be distributed on a weekly basis. Anyone who wishes to be added/removed from the direct mailing list, should e-mail LOUVAMCconstruction@usace.army.mil.

Louisville VA Medical Center Overview

The Department of Veterans Affairs and the U.S. Army Corps of Engineers Louisville District are building a new 104 bed, full-service hospital in Louisville, Kentucky to provide world-class healthcare to Veterans in Kentucky and Southern Indiana. The new 972,000 square foot facility will replace the existing Robley Rex VA Medical Center.
