

WEEKLY UPDATE

JANUARY 10, 2022

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG®

Dear community partners,

In an effort to keep you informed about construction on the new Louisville Veterans Affairs Medical Center, the U.S. Army Corps of Engineers Louisville District is happy to share details on major activities planned for the coming week.

Construction activities scheduled for the week of JANUARY 10, 2022 include:

- Recent rainy weather may hamper some of the construction operations this week, but plans include moving forward with earthwork on detention basins as well as some associated drainage pipe installation.

Additional notes:

As reminder, area residents may see work taking place on the construction site on Saturdays to make up for time lost due to inclement weather.

For the most recent information on the project, please visit:

www.va.gov/louisville-health-care/programs/new-robley-rex-va-medical-center

If you have specific questions about the construction of the new medical center, please send us an email at: LOUVAMCconstruction@usace.army.mil.

These updates will be distributed on a weekly basis. Anyone who wishes to be added/removed from the direct mailing list, should e-mail LOUVAMCconstruction@usace.army.mil.

Louisville VA Medical Center Overview

The Department of Veterans Affairs and the U.S. Army Corps of Engineers Louisville District are building a new 104 bed, full-service hospital in Louisville, Kentucky to provide world-class healthcare to Veterans in Kentucky and Southern Indiana. The new 972,000 square foot facility will replace the existing Robley Rex VA Medical Center.
