

# Land Development Code Reform: New Form Districts

## INFORMATION SESSION

### What is a Form District?

A Form District is an area with distinct boundaries and a set of regulations governing the pattern of development and redevelopment, such as building heights, setbacks/yard requirements, and lot sizes. Form districts supplement zoning districts in Louisville Metro, which regulate permitted uses and allowable density.

### Virtual Meeting Details

The Offices of Planning and Design Services and Advanced Planning and Sustainability invite you to attend an informational session on two new form districts adopted in Plan 2040 – **Conservation and Urban Center Neighborhood** form districts. Please join us for this virtual event:

**June 28, 2022**

**6:00 p.m.**
