

OES invites you to review the **Community Outreach and Engagement Strategy** and share your feedback on the plan.

YOUR VOICE MATTERS!

About This Opportunity

The County of San Diego's Office of Emergency Services (OES) developed the **Community Outreach and Engagement Strategy** to guide how we connect with people, our jurisdictional partners, and internal and external partner networks across the region before, during, and after emergencies.

This plan is based on FEMA's Whole Community Approach, which focuses on including everyone in emergency planning, especially people from diverse cultures and backgrounds.

The Public Comment period will be open between:

 **AUGUST 8-SEPTEMBER 5, 2025**

Your feedback helps us:

- ▶ Find what's missing in our plan
- ▶ Ensure we understand community concerns and needs
- ▶ Use local knowledge and ideas
- ▶ Build trust and stronger partnerships
- ▶ Make sure community input is included in our emergency plans
