

SUMMER SESSIONS:

The Maryland Cannabis Administration Stakeholder Engagement Series

The Maryland Cannabis Administration is preparing a series of stakeholder engagement opportunities for the Summer of 2026.

These engagements will provide an opportunity for industry participants, patient advocates, subject matter experts, and other interested stakeholders to discuss emerging policy issues, implementation considerations, and areas where additional stakeholder feedback may be beneficial.

Topics currently under consideration include:

July 2026:

New Legislation

July 2026:

Medical and Therapeutic Claims

August 2026:

Regulatory Guidance and Clarity

If there are additional topics stakeholders would like MCA to consider for future engagement, please submit suggestions to mca.policy@maryland.gov.

While specific dates and formats are still being finalized, MCA anticipates convening these discussions during Summer 2026. Additional information, including participation details and session-specific agendas, will be shared as it becomes available.
