

Technology Digest Inc. and Montgomery County Department of Health and Human Services (DHHS) are deeply committed to developing technologies that enrich the lives of our community.

We are inviting native Chinese Mandarin, Amharic, Korean, Vietnamese, French, and Spanish speakers to participate in a comprehensive 2.5-hour system review session. This is a unique opportunity to directly influence the design and functionality of the application by providing your feedback. We will select a total of **20** candidates for the feedback session.

Participants will be rewarded with a **\$100 Visa gift card** for their valuable time and input, and complimentary refreshments will be provided during the session.
