

Next Generation Scholars

Summer 2020 Programming & Activities

Allegany County

Students and parents alike look forward to the summer months. While we look on these months with great anticipation, the unprecedented end of the school year with COVID-19 signals a potential increase with what experts call a typical Summer Learning Loss. In an effort to help reverse this loss, MBRT has planned enriching activities for Next Gen students to participate in throughout the summer including:

- **Career & College Exploration Programs**
- **Service Learning Programs**
- **College Planning**

On the back of this flyer, you will find the summer programming available for Allegany County. Spaces are limited for all programs and activities, so be sure to talk to your student, reach out to your Next Generation Coordinator, and sign up ASAP!

Let's Get Involved!

Take a look at the fun that Next Generation Scholars had last summer. Want to be a part of the fun? Sign up for one (or more!) of the summer camps by contacting your NGS Coordinator.
