

**Have you experienced a traumatic event in your life?
Do thoughts about this experience affect you now?
Do you use alcohol to get relief?**

We are conducting a research study of a medication that may help people who have experienced a traumatic event feel better and drink less. Traumatic events are things like physical or sexual assault, war zone exposure, serious accidents, and natural disasters. We are looking for:

- ✓ People who are age 18-65
- ✓ Males and females
- ✓ People of African American ancestry
- ✓ People in generally good health

Participation is confidential. You will be compensated for your time.
Transportation is available. To learn more, go to:
