“If there was a way to get immediate help with your job search, support needs, or career goals from fellow veterans who are employment professionals, would you use it?”

We thought so!

Maryland’s Veteran Virtual Kiosk is a NEW outreach effort provided under the Jobs for Veterans State Grant (JVSG) program. It’s available to any resident veteran, eligible family member, or caregiver to get answers to questions and help eliminate the issues which keep you from obtaining the job or career you deserve.

Regardless of where you live, simply log-in or call and our highly trained veterans will be ready to listen, relate, and work with you to remove any barriers to employment.

Need access to quality jobs? Need skill training? Need resources for you and your family? We can help.

All you have to do is take that next step and contact us today!
