

Unique Learning Opportunity

If you are a veteran or first responder, and interested in beekeeping, we would like you to join us outside for a unique learning opportunity. Additional to the beekeeping basics and continuing education, we promote ways to reverse pollinator declines and improve bee health through holistic beekeeping, conservation, habitat restoration, and educational outreach.

We offer education and a communal support system in a quiet, relaxed environment.

Mission Believe is a Carroll County MD based 501C3 non-profit that provides FREE beekeeping education and mentorship for Veterans and First Responders. The program equips participants with the tools to begin beekeeping, a hobby which has a strong therapeutic value for individuals suffering from PTSD, TBI, and anxiety. Beekeeping requires intense focus and attention to detail and it provides beekeepers with a purpose, sense of peace, community connections, and economic opportunities while simultaneously benefiting the environment. Mission Believe is looking to recruit Veterans and First Responders to participate in the program, experienced beekeepers to serve as mentors, and financial donations to fund the program. For more information, to donate, or to volunteer, visit our website.

OUR MISSION

Veterans and First Responders suffering from PTSD, TBI and anxiety have turned to beekeeping for relief since the early 1900s. Our mission is to provide Veterans and First Responders a beekeeping education through workshops and hands-on training. We teach them and their families a new trade, while providing a peaceful environment, and a way to reconnect with a community.

Published April 1919 in the "Opportunity Monograph, Vocational Rehabilitation Series No. 37 Bee Keeping"

WHAT WE OFFER

- 1 on 1 Mentors
- Beginner Beekeeping Class
- Hands-on workshops
