We want to hear from **YOU** about what topics to focus on this year! Please fill out this poll by **October 15th**.

https://qualtrics.uvm.edu/jfe/form/SV_dbPspkvWQGLA6VM

What's it all about: The Tri-state Greenhouse IPM Program is a collaboration among growers and specialists from ME, NH and VT.

This year's **two-part**, online program will have sessions spotlighting specific insect and disease issues, their management, proper use of existing IPM tools and other practical strategies to help improve crop quality.

We are expecting **up to 4** pesticide applicator recertification credits for attendees. You must be in attendance and actively participate to receive credits.

These workshops are for growers with greenhouses or high tunnels, extension specialists and professional pest managers. Growers of all experience levels are welcome to attend. Preregistration is required and will be available in **mid-November**.

Anyone from any state is welcome to attend, but states accepting reciprocal credits for VT sponsored courses are ME, NH, MA, CT and RI. We will apply for NY credits too!

Registration Site & Full Program Coming in November!

Contact **Cheryl Frank Sullivan** at cfrank@uvm.edu with questions.

Workshop organizing institutions and the USDA offer education and employment to everyone without regard to race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or familial status.
