

NEW FUNDING OPPORTUNITIES

Apply: Sep 1- Oct 6, 2023

The latest PFAS Grants from the Maine Drinking Water Program

PFAS TREATMENT

Small or disadvantaged community public water systems can apply to get a grant for up to 4 million dollars to treat their PFAS issue.

There are lots of other funding options for PFAS treatment if your system does not meet these requirements.

Removing PFAS from the water supply

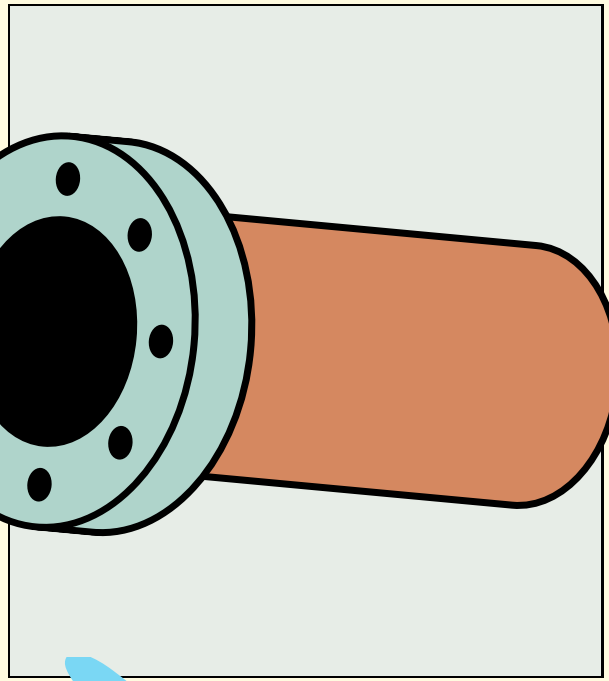

PFAS PLANNING

Some water systems may want a pilot study or other engineered plan to determine best steps for treating their PFAS. The DWP has a grant to cover all or most of those expenses.

Ion Exchange

Activated Carbon

Well Exploration

MAIN EXTENSIONS

Water systems can apply for a grant to help with the cost to bring on private wells that discover PFAS. Grants cover 50% of the cost up to 2 million dollars.
