

CHILD PASSENGER SAFETY

Help Me Grow Maine is proud to partner with the Maine Bureau of Highway Safety to offer this statewide program. Certified Child Passenger Safety Technicians provide **free car seat inspections** for all families, regardless of income, helping ensure children are safely secured in the right seat for their age and size.

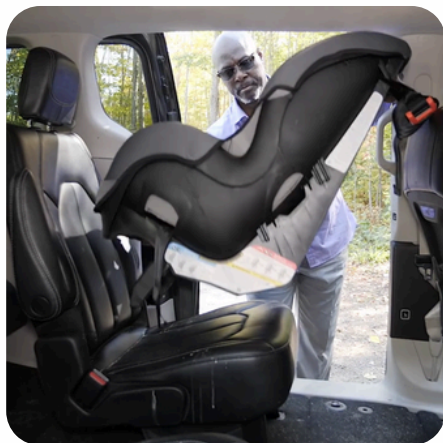

Income-eligible families may also qualify for a brand-new car seat and car seat safety education.

What seats are distributed (based on size)?

Evenflo Titan 65/SureRide, or Evenflo GoTime Booster/Pronto by Cosco Kids

Depending on where you live, Help Me Grow Maine will connect you with a local car seat distribution site or schedule an appointment with a Help Me Grow Maine technician if no local option is available.

Check out these car seat video guides!

Appointments are held at community locations and typically last **30 to 60 minutes**, including car seat safety education.

Due to staff and car seat availability, eligible families may wait several weeks for a car seat.

To schedule an appointment, please email helpmegrow@maine.gov or scan this QR code to complete a quick referral form.
