

REGIONAL LABOR MARKET UPDATE FOR JULY 2019:

MID-MICHIGAN AND NORTHEAST MICHIGAN

AUGUST 22, 2019

KEY TAKEAWAYS FOR THE MONTH

- Government jobs decreased in local MSAs this month. The seasonal decline is typical for July.
- Although every local MSA had an increase in their respective jobless rates, none increased as much as the statewide rate.
- Jobless rates rose in all 22 non-metro counties of Mid-Michigan and Northeast Michigan in July.
- At 35,200 total jobs, Bay City had the lowest payroll employment for July since 1992.
- Total nonfarm jobs in Flint are 2.3 percent higher (+3,200 jobs) over the month. At 142,200 Flint has the most jobs in the month of July since 2007.

Jobless Rates Up Seasonally in Local Metro Areas

July brought a typical increase in Mid-Michigan metro area jobless rates. Every local area had rate growth of at least 0.5 percentage points, but none rose as much as the statewide advance of 0.7 percentage points. Each metro region recorded growth in the number of unemployed, but also had reductions in the total number of people in the labor force.

The Flint metro area had a jobless rate increase of 0.6 percentage points this month. This came with 2.1 percent reduction (-3,800) in the number of employed. At 6.1 percent, Flint continues to have the highest jobless rate of any MSA in the state (**Figures 1, 2, and 7**).

At 4.5 percent, Midland had the lowest jobless rate of any MSA in Mid-Michigan. This rate also ranked as the third lowest rate of any MSA in the state. This is an improvement from June when Midland's jobless rate ranked 5th statewide compared to other regions. Of the four local MSAs, Bay City had the next lowest July jobless rate of 5.5 percent while Saginaw registered a rate of 5.7 percent (**Figures 1, 2, and 7**).

Over the year, jobless rates remained stable in the local MSAs. Bay City and Midland recorded jobless rate bumps of 0.2 and 0.1 respectively. Saginaw remained level and Flint dropped 0.1 percentage points. The state had a small increase of 0.3 percentage points over the year (**Figure 7**).

Jobless rates rose in all 22 non-metro counties of Mid-Michigan and Northeast Michigan in July. Rate advancement varied across the counties from 0.2 (Arenac) to 1.7 (Gratiot) percentage points. The three highest rates in the state this month were all in the northeast portion of the lower peninsula: Oscoda (8.1 percent), Montmorency (7.8 percent), and Roscommon (7.5 percent).

Over the year, 15 of the 22 local non-metro counties had increases in their jobless rate. Most movements were very modest. Crawford and Otsego's labor forces each added 150 people. Shiawassee County grew by 300 and St. Clair County had a labor force increase of 1,675 individuals (**Appendix 1**).

“Payroll jobs are down this month in all local metro regions due to seasonal losses in *Government* jobs. Jobless rates rose in all 22 local non-metro counties over the month with mixed outcomes over the year.

- EVAN LINSKEY, ECONOMIC ANALYST

Payroll Jobs Decreased Seasonally in Mid-Michigan MSAs

FLINT METROPOLITAN STATISTICAL AREA

Over the month, *Total nonfarm* payroll jobs dropped 2,500 (-1.7 percent) in Flint. *Goods producing* industries remained stable moving down only 100 (-0.5 percent) while *Service providing* industries fell 2,400 jobs (-1.9 percent). *Professional and business services* dropped 700 jobs while *Educational and health services* regressed 800 jobs. The largest mover over the month was *Government*, down 1,100 jobs, typical of the season.

Even with this sizable monthly drop, *Government* jobs sit 300 higher than July of 2018. *Manufacturing* recorded the largest total growth over the year adding 1,300. *Total nonfarm* jobs in Flint are 2.3 percent higher (+3,200 jobs) since last July (**Figure 8**).

SAGINAW METROPOLITAN STATISTICAL AREA

Saginaw payroll jobs inched down 1.0 percent this month (-900 jobs). *Service providing* industries dropped 1,000 this month with the majority (-700) coming out of *Government*. This is seasonally typical as some school employees are off payrolls for summer break. No other industry shifted more than +/-100.

Over the year, Saginaw grew by a modest 600 jobs (+0.7 percent). *Leisure and hospitality* showed the largest gains over the year adding 600 jobs (+6.5 percent). *Goods producing* industries added 1.3 percent (**Figure 8**).

BAY CITY METROPOLITAN STATISTICAL AREA

Bay City jobs declined for the first month since March. Like the other local MSAs, Bay City had the largest decline in *Government* (-300 jobs) of any industry.

Over the year Bay City was also down 300 jobs. *Trade, transportation, and utilities* recorded the most movement over the year dropping 300 jobs (-3.9 percent). At 35,200 total jobs, Bay City has the lowest number of total jobs in July since 1992 (**Figure 8**).

MIDLAND METROPOLITAN STATISTICAL AREA

The Midland MSA receded 600 total jobs this month, but 500 of those came from the seasonal movement in *Government* (-16.1 percent).

Midland's payroll employment advanced by 300 jobs (+0.8 percent) over the year. The *Goods Producing* sector climbed 600, while the *Service Providing* industries slid 300 since July 2018. *Government* jobs remained flat over the year (**Figure 8**).
