

Pediatric Preparedness Resources

Unfortunately, it sometimes happens that the smallest among us are overlooked in preparedness planning. Here are seven resources to help ensure that pediatrics are a part of your preparedness plans.

[Preparedness Checklist for Pediatric Practices](#)

A checklist to help healthcare providers take steps to improve pediatric office preparedness.

[Emergency Department Pediatric Preparedness Checklist](#)

A checklist to determine if an Emergency Department is prepared to care for children.

[Hospital Pediatric Preparedness Toolkit](#)

A toolkit for hospitals to determine current levels of pediatric preparedness and identify opportunities to improve.

[Pediatric Preparedness Resource Kit](#)

A resource kit to promote discussions and decision-making among pediatric and public health leaders about pediatric preparedness planning.

[Post-Disaster Reunification of Children: A Nationwide Approach](#)

A resource to assist in the development of reunification planning elements for children separated from their parents or legal guardians following a disaster.

[Providing Psychosocial Support to Children and Families in the Aftermath of Disasters and Crises](#)

An article that provides information on common adjustment difficulties in children following a disaster and strategies for increasing coping skills and resiliency.

[Addressing Disaster Mental Health Needs of Children: Practical Guidance for Pediatric Emergency Healthcare Providers](#)

An article that provides information and practical guidance for pediatric emergency health care providers.
