

Long Term Care Intro to the Incident Command System Online Training Module

Online version available on MI-TRAIN (<http://mi.train.org>) Course Number: 1050947

Sponsor: Michigan Department of Health and Human Services, Bureau of EMS, Trauma and Preparedness

Description: This learning module will provide introductory level information about the Incident Command System (ICS), including basic Incident Command roles and structure, as well as the relevant functions of Long Term Care (LTC) facilities in the ICS structure.

Provider Contact Information: Direct any questions about this learning module/CME activity to MDHHS-BETP at: MI-TRAIN@michigan.gov

Purpose: The goal of this online independent study module is to introduce long term care facility staff to the Incident Command System.

Learning Objectives:

- Identify two concepts behind the Incident Command System.
- Identify and express basic Incident Command System roles and structure.
- Understand two primary functions relevant to the emergency preparedness role in a long term care facility, in the Incident Command structure.

Cost: There is no participant fee for learners.

Funding Statement: This learning module was supported 100% by the Michigan Department of Health and Human Services with funding from the U. S. Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR) Hospital Preparedness Program Cooperative Agreement. The contents of this training module are solely the responsibility of the authors and do not necessarily represent the official views of the Assistant Secretary for Preparedness and Response (ASPR).
