BULLETIN

BEHAVIORAL AND PHYSICAL HEALTH AND AGING SERVICES ADMINISTRATION

Bulletin Number: MMP 23-31

Distribution: Durable Medical Equipment, Prosthetics, Orthotics and Supplies

(DMEPOS) Providers, Hospitals, Practitioners, Pharmacies, Medicaid

Health Plans (MHPs), Integrated Care Organizations (ICOs)

Issued: May 1, 2023

Subject: Revisions to Continuous Glucose Monitoring Systems (CGMS) Policy

Effective: June 1, 2023

Programs Affected: Medicaid, Children's Special Health Care Services (CSHCS), Healthy

Michigan Plan, Maternity Outpatient Medical Services (MOMS)

This policy applies to Medicaid Fee-for-Service (FFS). MHPs and ICOs must provide the full range of covered services described in this policy at a minimum and may choose to provide services over and above those specified. For beneficiaries enrolled in a MHP or ICO, the provider must check with the beneficiary's MHP/ICO for prior authorization requirements.

The purpose of this bulletin is to inform providers of revisions to be made to the CGMS policy. The revisions indicated in this bulletin are effective June 1, 2023.

Definition

The following is added to the definition of CGMS to distinguish the difference between non-adjunctive/therapeutic and adjunctive/non-therapeutic CGMS:

CGMS may be non-adjunctive/therapeutic (CGMS can be used to make treatment decisions without the need to confirm test results using a blood glucose monitor [BGM]); or adjunctive/non-therapeutic (beneficiary must use a BGM to test the results displayed on the CGMS prior to making a treatment decision).

Revised Standards of Coverage

Personal use CGMS are covered for beneficiaries with diabetes when all the following are met:

- The beneficiary is under the care of one of the following:
 - An endocrinologist; or
 - A physician or non-physician practitioner (nurse practitioner, physician assistant or clinical nurse specialist) who is managing the beneficiary's diabetes.
- The beneficiary has diabetes requiring the administering of insulin or is currently using an insulin pump.

 The beneficiary or their caregiver is educated on the use of the device and is willing and able to use the CGMS.

Note: CGMS reduce the frequency of fingerstick blood glucose testing but do not eliminate the need to fingerstick test entirely. Glucometers and testing supplies must be made available. These supplies are billed separately (following frequency rules) for adjunctive/non-therapeutic CGMS. Glucometers and testing supplies are included in the monthly supply HCPCS code for non-adjunctive/therapeutic CGMS. Refer to the Payment Rules section of this policy.

Although not required for coverage consideration, physicians/non-physician practitioners are encouraged to refer patients who are willing and able to attend a certified diabetes self-management education training program. A map identifying Medicaid enrolled Diabetes self-management education and support (DSME) providers can be found at: www.michigan.gov/diabetes.

Additions to Documentation

Documentation must be less than 90 days old and include all the following:

- Frequency of insulin administered per day or indicate if the beneficiary is using an insulin pump; and
- Current treatment plan.

The initial order must be written for six months. If the beneficiary continues to utilize the CGMS, the practitioner may write an order for an additional six months. After the first year, an order(s) for replacement sensors, transmitters and other separately billed supplies used with the CGMS (following frequency rules) may be written for a 12-month period.

Note: Children's Special Health Care Services (CSHCS) beneficiaries require a prescription from a CSHCS authorized physician subspecialist. Refer to the CSHCS Chapter in the MDHHS Medicaid Provider Manual.

All other documentation requirements indicated in current policy remain unchanged.

Revised Prior Authorization

Prior authorization is not required for the following if standards of coverage and documentation requirements are met:

- Type I diabetes.
- Diabetes in pregnancy, childbirth, and the puerperium period (insulin or non-insulin treated).

Prior authorization is required for all other conditions and clinical scenarios where use of CGMS may be beneficial, including but not limited to Type II diabetes.

-

Additions to Payment Rules

The sensor, transmitter and receiver are purchase-only items, except for Healthcare Common Procedure Coding System (HCPCS) codes K0554 and E2102 (may be purchased, rented or used items).

Michigan Department of Health and Human Services (MDHHS) covers the following HCPCS codes:

HCPCS Code	Description	Limit	Fee	Modifier
A4238*	Supply allowance for adjunctive, non-implanted continuous glucose monitor (CGM), includes all supplies and accessories, 1 month supply = 1 unit of service	1 per month	\$207.24	NU
A9276	Sensor; invasive (e.g., subcutaneous), disposable, for use with interstitial CGMS, 1 unit = 1 day supply	30 per month	\$13.32	NU
A9277	Transmitter; external, for use with interstitial CGMS	2 per year	\$525.51	NU
A9278	Receiver (monitor); external, for use with interstitial CGMS	1 per 3 years	\$422.47	NU
E2102	Adjunctive, non-implanted continuous glucose	1 per 3 years	\$176.61	NU
	monitor or receiver	10 per 3 years	\$17.66	RR
		1 per 3 years	\$132.46	UE
K0553** New code effective January 1, 2023 A4239	Supply allowance for therapeutic CGMS, includes all supplies and accessories, 1-month supply = 1 unit of service	1 per month	\$236.34	NU
K0554	Receiver (monitor); dedicated, for use with	1 per 3 years	\$248.62	NU
New code	therapeutic CGMS	10 per 3 years	\$24.86	RR
January 1, 2023 E2103		1 per 3 years	\$186.48	UE

^{*}Adjunctive/non-therapeutic CGMS (E2102) require the beneficiary to use a BGM to test the results shown on the CGMS prior to making a treatment decision. The BGM and BGM supplies are not included in the allowance for the adjunctive/non-therapeutic CGMS supply (A4238) and may be billed separately (within BGM policy limits). HCPCS code A4238 is comprised of all items necessary to use the device (E2102), including CGMS sensors and transmitters.

-

^{**}The following HCPCS codes are included in the allowance for K0553 (effective January 1, 2023 A4239 replaces K0553) and may not be billed separately: A4233, A4234, A4236, A4244, A4245, A4246, A4247, A4250, A4253, A4255, A4256, A4257, A4258, A4259, E0607, E2100 and E2101.

HCPCS Coding Changes Effective January 1, 2023

The Centers for Medicare & Medicaid Services (CMS) HCPCS Workgroup made the following changes:

Deleted HCPCS Code Effective December 1, 2022:	New HCPCS Codes Effective January 1, 2023:
K0553	A4239 (replaces K0553)
K0554	E2103 (replaces K0554)

For prior authorization requests approved for HCPCS codes K0553/K0554 on or before December 31, 2022, for authorization periods that span beyond June 1, 2023, providers must contact the MDHHS Program Review Division to change the end-dated HCPCS codes (K0553/K0554) to the new HCPCS codes (A4239/E2103). The provider may fax (517-335-0075) a change request with a listing of approved tracking numbers requesting HCPCS codes K0553/K0554 be changed to A4239/E2103, accordingly.

Providers should consult the Medicare Pricing, Data Analysis, and Coding (PDAC) contractor if unsure which HCPCS code is most appropriate for the CGMS. Refer to https://www.dmepdac.com/.

All other CGMS policy criteria indicated in current policy remain unchanged. (Refer to the Medical Supplier chapter of the MDHHS Medicaid Provider Manual.)

Manual Maintenance

Retain this bulletin until the information is incorporated into the MDHHS Medicaid Provider Manual.

Questions

Any questions regarding this bulletin should be directed to Provider Inquiry, Department of Health and Human Services, P.O. Box 30731, Lansing, Michigan 48909-8231, or e-mailed to ProviderSupport@michigan.gov. When you submit an e-mail, be sure to include your name, affiliation, NPI number, and phone number so you may be contacted if necessary. Typical Providers may phone toll-free 1-800-292-2550. Atypical Providers may phone toll-free 1-800-979-4662.
