

Attention Healthcare Coalitions

Does your Coalition need a Chemical or Pediatric Surge Tabletop Exercise?

Solution: The Western Regional Alliance for Pediatric Emergency Management (WRAP-EM) is considering conducting a series of multi-HCC Chemical or Pediatric Surge Virtual Tabletop Exercises (VTTX) to validate Annexes/Plans as we hosted in 2022-23. The VTTXs would be held in the February-April 2024 timeframe. In addition to fulfilling HPP requirements, there are potential benefits for HCCs to share and learn from each other, hearing other challenges and questions by participating jointly in a Virtual TTX.

Format:

- 2 ½ hour facilitated Virtual TTX with participation for up to 10 HCCs.
- The Primary host will provide the exercise documentation, templates, guide the process, and run the technical side of the Virtual TTX.
- There will be three breakout sessions covering different sections of the Annex/Plan.
- Each HCC will host and facilitate their breakout room for discussion of their Coalition Annex. Training will be provided.
- HCCs will be asked to share highlights after each breakout when returning to the Main Room.
- Each HCC is responsible for completing the required documentation and After-Action Report with the provided template, and feedback to the host.

We ask that only Healthcare Leadership to complete the VTTX Interest Form at the link below.
