Dear Pharmacy Providers and Medicaid Health Plans:

RE: Update to Medicaid Health Plan (MHP) Pharmacy Reimbursement. Michigan Pharmacies with 7 or fewer retail outlets effective February 13, 2024.

The purpose of this letter is to notify you that starting with dates of service February 13, 2024, Medicaid Health Plans (MHPs) will be contractually required to reimburse pharmacies located in Michigan who have 7 or fewer retail outlets total, in accordance with Section 105i of the [2023 Public Act \(PA\) 279](#). This letter intends to replace [L 20-73](#) issued on January 15, 2021.

Section 105i of the 2023 PA 279 includes the following:

Medicaid Health Plan Pharmacy Reimbursement Methodology

2023 PA 279 legislates that the MHP reimbursement methodology for Michigan pharmacies with not more than 7 retail outlets will be the lesser of national average drug acquisition cost plus a professional dispensing fee that is at least equal to the applicable professional dispensing fee provided through section 1620 of article 6 of [2020 PA 166](#), wholesale acquisition cost plus a professional dispensing fee provided through section 1620 of article 6 of 2020 PA 166, or the usual and customary charge by the pharmacy.

Michigan Pharmacies with 7 or Fewer Retail Locations

The legislated reimbursement language of Section 105i of the 2023 PA 279 applies to pharmacies only located in Michigan.

MDHHS has provided the MHPs with an initial list of CHAMPS enrolled pharmacies located in Michigan that appear to have 7 or fewer retail outlets in total. The Department will also provide the MHPs with weekly updates of any newly enrolled Michigan pharmacies that satisfy the criteria of 7 or fewer retail outlets in total, or pharmacies that no longer meet the criteria.

L 23-74

What is a Michigan Pharmacy with 7 or Fewer Retail Locations?

Retail pharmacies are pharmacies that are open to the general public for filling prescriptions. The Department will utilize the CHAMPS enrollment record taxonomy designation of 'Community/Retail Pharmacy' to identify whether a pharmacy is considered 'Retail'. Pharmacies that are not open to the general public do not meet the 'retail' criteria for these MHP reimbursement changes.

A pharmacy outlet has a unique physical location and national provider identifier (NPI). Pharmacies with 7 or fewer outlets are being identified by the MDHHS as pharmacies where any individual owner of the pharmacy does not have 5% or more ownership/ownership interest in 8 or more retail outlets.

Providers are required to update their CHAMPS enrollment to reflect any changes to ownership, specialty, licensure, certification, managing employees, etc. Additionally, pharmacies must ensure that their CHAMPS enrollment taxonomy is set to Community/Retail Pharmacy when appropriate. Failure to update CHAMPS enrollment with changes may result in audits, post-payment recoveries, or suspension/termination of enrollment.

Please refer to Attachment A for the Department's preliminary list of Michigan pharmacies with 7 or fewer retail outlets in total. If your pharmacy needs to be removed or considered for addition to the Department's list, you must complete Attachment B or Attachment C, respectively, then forward to MDHHSPharmacyServices@michigan.gov or fax to 517-346-9877. Any updates must be sent as soon as possible, preferably prior to February 1, 2024. Pharmacies erroneously included on the Department's list will be at risk of post-payment audit recoveries. Pharmacies excluded from the Department's list will not be entitled to the MHP reimbursement changes identified in this letter.

Any other questions can be directed to Vicki Goethals via email at GoethalsV@michigan.gov.
