Dear Providers:

RE: Medicaid Coverage of Stand-Alone Vaccine Counseling

This letter notifies providers of changes to Medicaid coverage of stand-alone vaccine counseling. Medicaid covers vaccine counseling services, including stand-alone vaccine counseling. Stand-alone vaccine counseling refers to counseling provided to a beneficiary and/or caregiver about a vaccine by a health care provider, but a vaccine is not administered on the same date of service.

Effective January 1, 2026, non-pharmacy providers should report Current Procedural Terminology (CPT) codes 90482-90484 for stand-alone vaccine counseling services when vaccines are not administered on the same date of service. These codes apply to counseling provided in person or via telehealth and require documentation of at least three minutes of counseling time. (Refer to the Telemedicine chapter of the [Michigan Department of Health and Human Services \[MDHHS\] Medicaid Provider Manual](#) for additional information regarding program coverage of telemedicine services.)

Stand-Alone Vaccine Counseling CPT Codes

90482 - Immunization counseling by physician or other qualified health care professional when immunization(s) is not administered by provider on the same date of service, 3 minutes up to 10 minutes.

90483 - Immunization counseling by physician or other qualified health care professional when immunization(s) is not administered by provider on the same date of service, more than 10 minutes up to 20 minutes.

90484 - Immunization counseling by physician or other qualified health care professional when immunization(s) is not administered by provider on the same date of service, more than 20 minutes.

Pharmacy providers should continue to bill vaccine counseling as a Medication Therapy Management (MTM) service when billed in accordance with the MTM policy. Documentation must support the service provided.

L 25-79

There are no changes to coverage and reporting of vaccine counseling provided as part of a covered vaccine administration service. Providers should continue to report these services with CPT codes 90460-90461, 90471-90474, and 90480 as appropriate.

Medicaid coverage of Healthcare Common Procedure Coding System (HCPCS) codes G0310-G0315, which were previously reported for stand-alone vaccine counseling, as identified in Bulletin [MMP 22-35](#), will end on December 31, 2025.
