

COVID-19 UPDATE

4.9.20

STAY HOME.

STAY SAFE. SAVE LIVES.

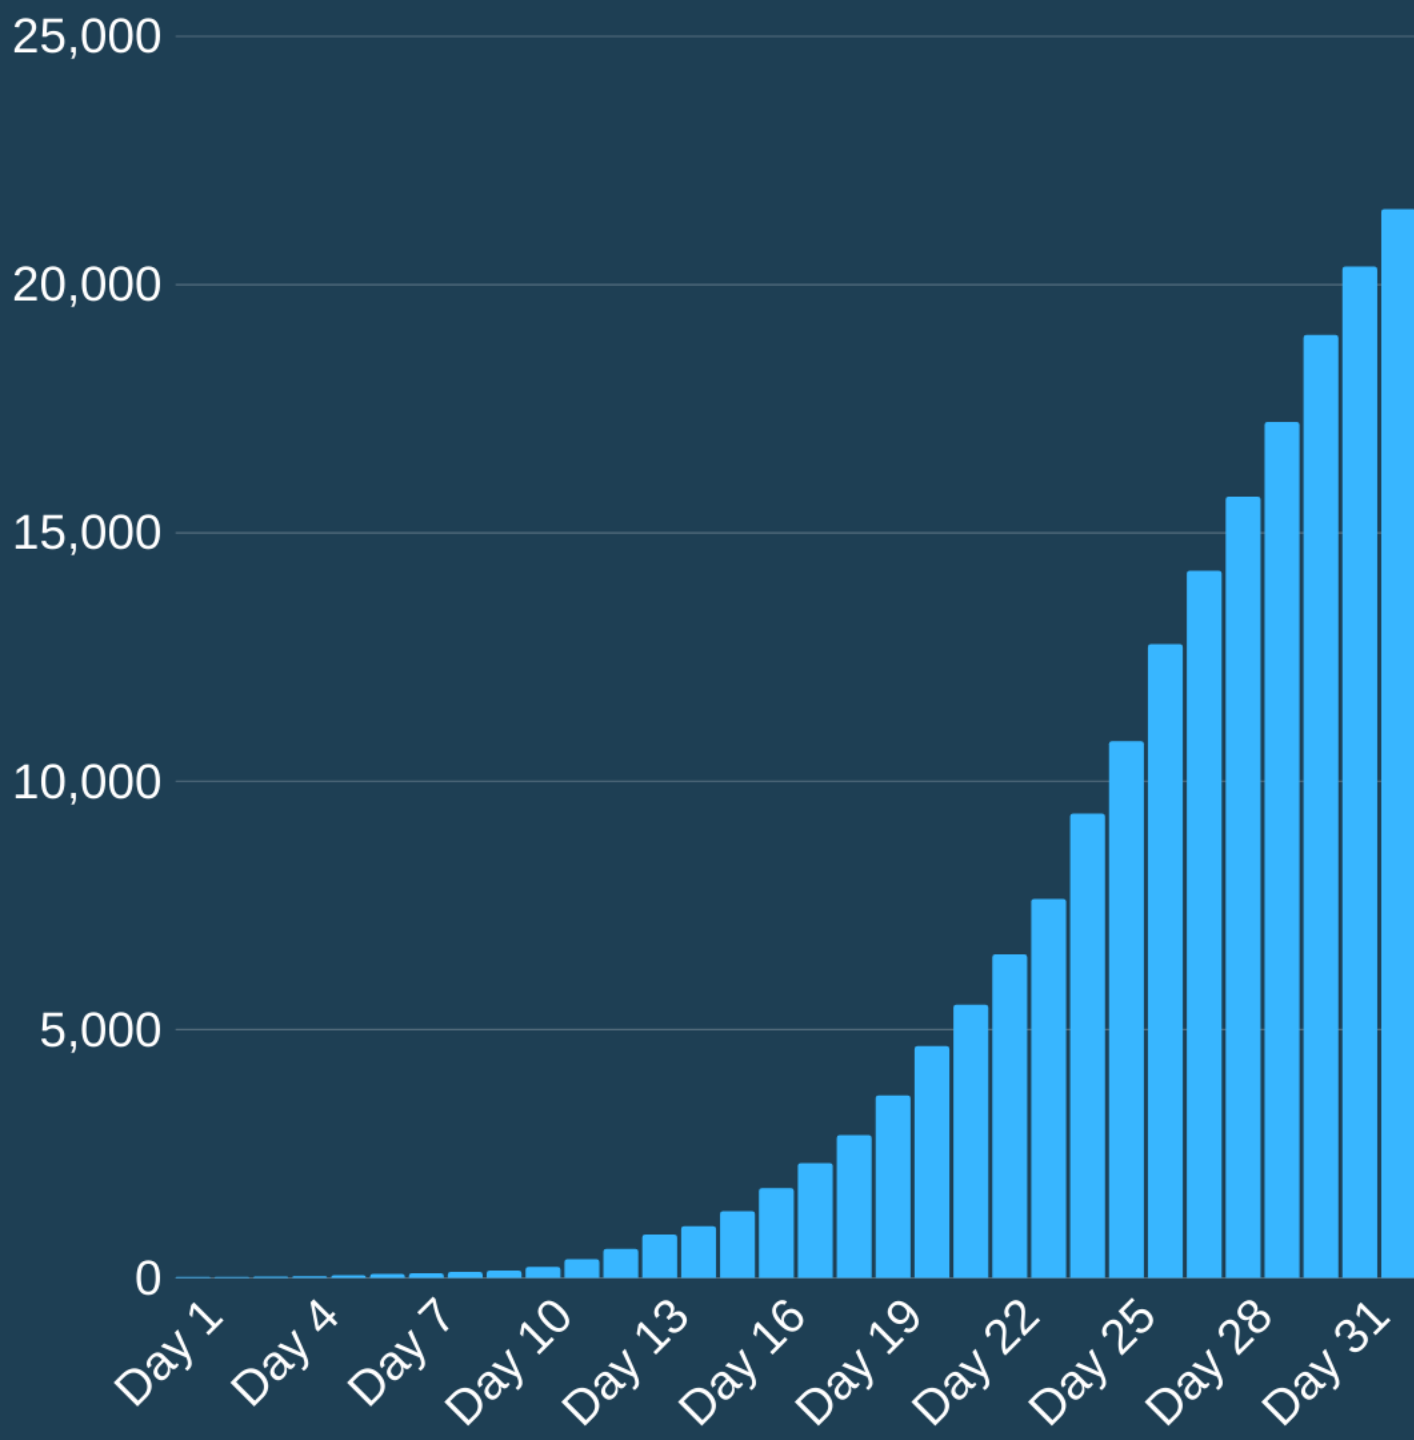

[MICHIGAN.GOV/CORONAVIRUS](https://michigan.gov/coronavirus)

SINCE MONDAY:

- We announced that the State of Michigan has selected the Suburban Collection Showplace in Novi, in collaboration with Ascension Michigan, as the site of a second alternate care facility.
- We announced that the Henry Ford Health System, McLaren Health Care, Beaumont Health and the Detroit Medical Center, will serve as partners providing critical support, staffing and resources at the TCF Regional Care Center.
- I sent a letter to Vice President Pence about the severe shortage of critical medications used in providing care to COVID-19 patients in Michigan.

SINCE MONDAY:

- **I signed an executive order to temporarily suspend requirements regarding licensing and regulation of emergency medical services.**
- **I signed an executive order to reduce unnecessary in-person contact, through the use of electronic signatures, remote notarizations, remote witness attestations and acknowledgments, and remote visitations.**
- **We are doing everything we can to get food benefits to people who need it.**
- **We are working around the clock to help those who are still having technical issues filing for unemployment.**

We now have
21,504
confirmed cases
of COVID-19 in
Michigan.

1,076
people have
died due to
COVID-19.

Range of COVID-19 scenarios for Michigan from national models

The State of Michigan is evaluating multiple models and actively monitoring the rate of spread of COVID-19 and adherence to Stay Home, Stay Safe measures to determine the shape and size of Michigan's curve.

These four scenarios represent only a few of the many models being evaluated, which show scenarios both within and beyond the range shown here. These include the University of Michigan's School of Public Health model, which allows for a range of social distancing scenarios.

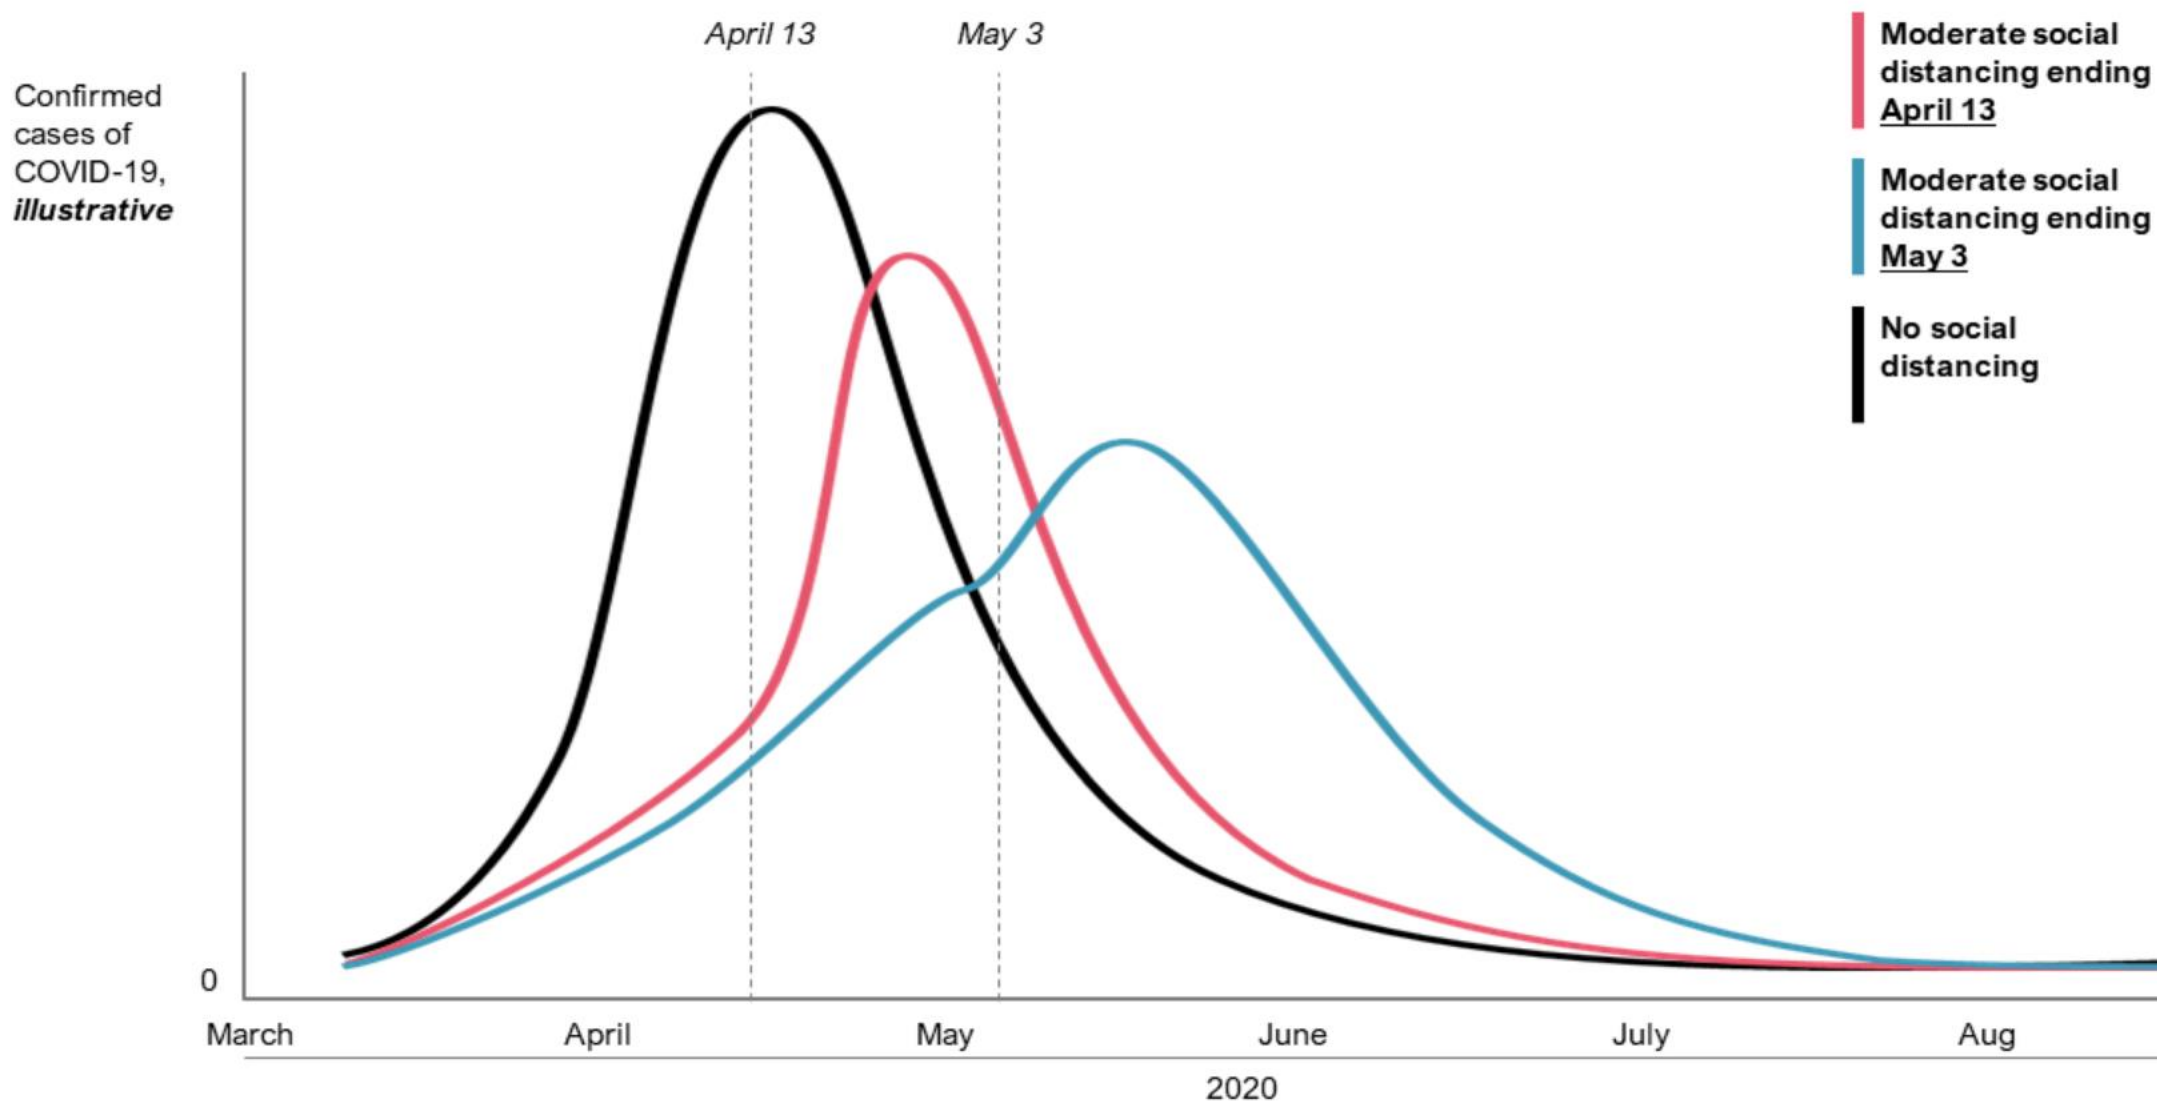

THESE AREN'T JUST LINES ON A CHART.

THEY REPRESENT OUR PARENTS,
GRANDPARENTS, SIBLINGS, AND
NEIGHBORS.

WHEN **ALL OF US** TAKE THIS SERIOUSLY,
WE CAN **SAVE LIVES** AND **PROTECT OUR**
LOVED ONES.

Implications of social distancing time range on COVID-19 cases
