EXECUTIVE ORDER

No. 2020-182

Council on Climate Solutions

Department of Environment, Great Lakes, and Energy

The science is clear, and message urgent: the earth’s climate is now changing faster than at any point in the history of modern civilization, and human activities are largely responsible for this change. Climate change already degrades Michigan’s environment, hurts our economy, and threatens the health and well-being of our residents, with communities of color and low-income Michiganders suffering most. Inaction over the last half-century has already wrought devastating consequences for future generations, and absent immediate action, these harmful effects will only intensify. But we can avoid some of the worst harms by quickly reducing greenhouse gas emissions and adapting nimbly to our changing environment.

At this moment, our state is reckoning with the failure of U.S. officials to adequately prepare for the challenges of a global pandemic. We cannot make the same mistake when it comes to impending climate crises of food instability, crop-killing droughts, deadly heatwaves, and intensifying weather events. Even now, fires of historic proportion are raging across the West Coast, offering a tragic reminder that climate change is a present-day threat and is not waiting for our attention.

To combat this climate crisis, Michigan must take comprehensive, coordinated, and aggressive action. That is why, with Executive Directive 2020-10, I directed the Department of Environment, Great Lakes, and Energy, through its Office of Climate and Energy, to develop, issue, and oversee the implementation of the MI Healthy Climate Plan (“Plan”), which will serve as the action plan for this state to reduce greenhouse gas emissions and transition toward economywide carbon neutrality.

The development and implementation of this Plan would benefit from the guidance of a council composed of individuals representing various sectors and communities throughout this state, who can use their diversity of experiences and expertise to ensure that Michigan pursues and achieves its carbon-neutrality goals as effectively and equitably as possible.

Section 1 of article 5 of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the governor.
Section 8 of article 5 of the Michigan Constitution of 1963 places each principal department of state government under the supervision of the governor unless otherwise provided.

Section 8 of article 5 of the Michigan Constitution of 1963 obligates the governor to take care that the laws be faithfully executed.

Acting under the Michigan Constitution of 1963 and Michigan law, I order the following:

1. **Creating the Council on Climate Solutions**

   (a) The Council on Climate Solutions (“Council”) is created as an advisory body within the Department of Environment, Great Lakes, and Energy (“Department”).
