Hey, thanks @moderna\_tx, @InghamHealth, & volunteers working to get shots in arms. Got my first vaccine shot today. I think of the word "cooperation" when I think about all the research, logistics, and state funding that went into getting so many vaccines out, so quickly #mileg

@pfizer shot #1 in the books! While I would've taken any vaccine offered, happy to get one from our home town heroes! Thanks @KzooCountyHCS for your streamlined operation! #grateful
