District Session Offerings

You have made it through the forest (MICIP 101). Now let's build the yellow brick road to a successful journey.

Traveling with Friends — 1 hour

How can available supports accelerate improvement for schools identified for additional supports?

Learn how RAG-funded supports, regional partnerships, and state resources can strengthen local improvement efforts. Participants will explore available supports and plan how to maximize them.

Brick Road Assistance — 1 hour

What do I do when I get stuck?

Bring your questions, challenges, and planning needs. This flexible support session provides coaching, troubleshooting, feedback, and technical assistance tailored to your local context.

Seeing Beyond the Emerald City — 2 hours

How can we ensure our improvement efforts support the Whole Child?

Examine student success through a whole-child lens that includes academic, behavioral, social, emotional, and engagement factors. Participants will consider how multiple systems work together to support student outcomes.

What's Already in the Basket? — 2 hours

How can we leverage existing initiatives and resources to support improvement?

Examine current programs, practices, and resources to identify strengths, gaps, and opportunities. Participants will explore resource equity through staffing, time, partnerships, funding, and access.

Checking the Compass — 2 hours

How will we know if implementation is occurring and making a difference?

Design a monitoring system that tracks both implementation and impact. Participants will identify measures, develop monitoring routines, and plan for ongoing adjustment.

Continue your learning journey

Follow the Data Bricks — 2 hours

What story is our data telling us?

Explore multiple sources of data to identify strengths, needs, trends, and opportunities for improvement. Participants will learn practical approaches for turning information into action.

Map Your Journey — 2 hours

How can I maximize the MICIP platform for continuous improvement?

Explore the MICIP platform through guided reflection and hands-on interaction. Participants will navigate each stage while strengthening the connection between the process and their local improvement efforts.

Building the Yellow Brick Road — 3 hours

What does high-quality strategy implementation actually look like?

Define the core components of your strategy and create a shared vision for implementation. Participants will plan for what successful implementation looks like at the classroom, building, and district levels.

What's Behind the Curtain? — 3 hours

What system conditions are contributing to our current results?

Move beyond symptoms and student blaming to identify root causes within adult practices, structures, and systems. Participants will develop challenge statements that create a strong foundation for improvement planning.

Setting the Destination — 3 hours

What systems need to improve to achieve better outcomes for students?

Learn how to move from traditional outcome-focused goals to system-focused goals. Participants will develop end targets, interim targets, and identify strategies that strengthen the systems that produce results.
