

Two Free Preservation Trades Workshops

March, 2015

The Michigan Historic Preservation Network presents two hands-on historic preservation workshops intended for people with some experience in the trades.

March 23rd-27th, 2015

Plaster Repair Workshop

Grand Army of the Republic Building

Detroit

In this free, five-day workshop, participants will learn about the composition of historic plaster and the fundamentals of plaster repair and restoration, including patching, skim coating, and running plaster crown molding. Additionally, participants have the opportunity to earn their EPA Renovation, Repair, and Painting Certified Renovator certificate as part of this workshop.

March 26th-29th, 2015

Wood Window Rehabilitation Workshop

Fire Station 5 – 519 Douglas Avenue

Kalamazoo

A free, four-day workshop on the fundamentals of repair and rehabilitation of wood double-hung windows. Trainees will work with traditional building materials under the guidance of trained preservation craftspeople and will learn the skills of re-roping, replacing a broken pane of glass, weatherstripping, and lead-safe paint removal techniques.
