**DATE:** April 10, 2017  
**COST:** \$240.00

### ACCIDENT INVESTIGATION #5

#### *Tire Dynamics and Examination*

This one-day course helps the investigating officer to determine whether tire failure contributed to the accident and, if so, whether the failure took place before, during or after the collision. It also covers the role of tires in vehicle handling.

**DATE:** April 13, 2017  
**COST:** \$240.00

### ACCIDENT INVESTIGATION #6

#### *Lamp Examination*

This one day seminar is designed to assist investigators to determine whether vehicle lamps were “on” or “off” at the time of impact. Also, covers the proper procedure for removing and storing damaged vehicle lamps.

**DATE:** April 14, 2017  
**COST:** \$240.00

### ACCIDENT INVESTIGATION #7

#### *Commercial Vehicle Accident Investigation*

A five-day course covering those aspects of truck and bus accidents that differ from ordinary passenger-car crash dynamics. This course covers such topics as weight shift, truck braking systems, heavy vehicle components and variable drag factors. The course has been updated and includes the new CDL information with amendments to the commercial vehicle rules and regulations along with information on doubles. If you have taken AI-7, you may consider taking it again since the course content has been updated and revised. **NEED: Calculator with square root function and Measuring Device Template or Engineer’s scale. PREREQUISITE: Michigan State University’s Accident Investigation #1 and 2 or equivalent.**

# PPCT Defensive Tactics Instructor Course

The listed agency will be hosting a five-day PPCT Defensive Tactics Instructor course. Upon completion of this program, instructors will have the understanding and ability to return to their respective agencies or academies and train officers in these proven techniques. The PPCT Defense Tactics Instructor course is designed for individual law enforcement and correction agencies to have in-house instructor(s). By having in-house instructor(s), departments will reduce the cost of sending officers to outside training, have a qualified instructor to design programs that meet departmental needs and provide training that coincides with department policies.

# Non-Destructive Entry for Police Personnel

*MCOLES 302 funding registered*

## Why use Non-Destructive Entry (NDE)?

NDE offers an alternate option to a forced entry. Techniques such as lock picking can allow patrol officers, supervisors, command officers, detectives, surveillance/narcotic officers and special response/SWAT teams a covert and non-destructive entry method. NDE can be appropriate and helpful for welfare checks, community caretaker functions, suspicious circumstances, search warrants, a tactical option, or even a home lockout.

Forced entry is the *most expensive* and *least efficient* method of entry, and is not always necessary. With forced entry, there are significant costs of repair or replacement of a smashed door, broken lock and split door frame, all of which costs several hundred dollars to well over \$1,000, not to mention officer time waiting for board up or repair crews, litigation and loss of goodwill.

**BASIC COURSE:** This 2-day course will introduce participants to the core basics of non-destructive entry, including lock-picking techniques, bumping, and bypass methods over a 2-day course with more than 200 locks. Participants will practice on residential and commercial locks, padlocks, deadbolts, knob locks, lever handled locks, and mortise cylinders. Professional lock picking set/other tools provided. **May 8-9, 2017.** Cost is \$475.00.

**ADVANCED COURSE:** This 2-day course is part two of the training that follows the basic course. Students need to have had the basic course or similar training, and will need to bring their professional pick set from the basic course. Advanced lock picking techniques and bypass are covered, along with less destructive locksmith based entry techniques. There are over 200 locks including tubular locks. Professional tools are provided. **May 10-11, 2017.** Cost is \$475.00.

# Rape Aggression Defense Systems

## 30 hour Basic Certification Course

The Basic R.A.D. Certification Instructor Course is a comprehensive, 30 hour training environment which includes all required course materials. Since 1989, the R.A.D. curriculum has been taught by colleges, universities and municipal law enforcement agencies. R.A.D. instructors are certified to create opportunities for women to realize their inner power and strength.

R.A.D. Systems is a program of realistic, self-defense tactics and techniques. The R.A.D. System course for women begins with awareness, prevention, risk reduction and avoidance while progressing onto the basics of hands-on defensive training while also providing physical options within a "stun and run" philosophy. RAD is NOT a martial arts Program.

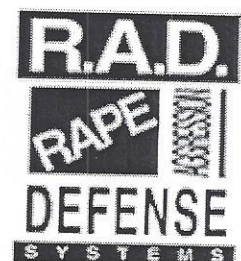

This course is designed primarily for women and is suitable for all ages and abilities.
