

TRAINING OPPORTUNITY

Hazmat Technician

Refresher

Hosted by the MING 51st Civil Support Team

Dr. Chris Weber with Dr. HazMat, Inc. presents his hazardous materials technician refresher class which has a tactical focus and is designed around your standard operating procedures. The class is customized to agency needs with respect to both content and length. The class is at least 50% hands on! Hazardous materials response is reinforced through realistic skills stations, scenarios, and exercises.
