Additional Food Assistance for 350,000 Michigan Families in Response to COVID-19 Emergency Extended through October

LANSING, MICH. – Approximately 350,000 Michigan families will continue to have access to additional food assistance benefits during the month of October as a response to the COVID-19 pandemic, Gov. Gretchen Whitmer and the Michigan Department of Health and Human Services (MDHHS) announced today.

Michigan previously approved the additional food assistance for March through September – and now that is being extended for the month of October with approval from the U.S. Department of Agriculture Food and Nutrition Service.

“No Michiganders should worry about how to put food on the table for themselves and their family, especially during a pandemic,” said Gov. Gretchen Whitmer. “COVID-19 is still a very real threat to our public health and Michiganders’ economic well-being. That’s why it’s so important that we continue providing this vital assistance to low-income families who need help putting food on the table”

Eligible clients will see additional food assistance benefits on their Bridge Card by Oct. 30, with payments beginning for some households on Oct. 18. Additional benefits will be loaded onto Bridge Cards as a separate payment from the assistance provided earlier in the month.

Nearly 1.5 million people in Michigan receive federal Supplemental Nutrition Assistance Program (SNAP) benefits through the state’s Food Assistance Program

Households eligible for Food Assistance Program benefits will receive additional benefits in October to bring all current SNAP cases to the maximum monthly allowance for that group size. This change only applies to customers not currently receiving the maximum benefit amount. The 350,000 households that receive increased benefits represent more than 50 percent of the more than 676,000 Michigan households that received food assistance in August. The remaining households already receive the maximum benefit.

The table below shows the maximum allowable benefit for SNAP customers based on their respective household size:
