Main Conference Room  
Holland, MI

**“Food Safety 101”** is a FREE training program for anyone interested in food safety. This class covers the basics of a wide range of food safety topics. Classes are taught by current inspectors, and are fun and interactive! Although this class would be useful for anyone working in a restaurant, it does not fulfill the Certified Manager requirement outlined in the Michigan Food Law.

**It is necessary to register for the scheduled classes by calling (616) 393-5645.**
