

Crockery Creek, Season One													
How many days did you hunt?	How many of the days were Saturdays or Sundays?	What hours did you hunt on an average day?	Were you successful?	If yes, was it a buck or doe?	Approx. Weight?	# points	Did you observe any interesting or unusual wildlife?	If so, please describe, including the location.	Were property lines well marked?	Did you encounter any hunters without county hunting permits?	Did you encounter any non-hunters (e.g. hikers) using the property?	If yes, how frequently?	Do you have any suggestions as to how the hunting program could be improved in the future?
22	9	7-11:30am, 3pm to dark. Hunted 104 total hours.	Yes	Doe	130lb		Yes	Lots of muskrats after the low areas flooded.	Yes	No	Yes	At least 50% of the days i hunted. Only on the marked trails when heading out or leaving hunt.	The hunt should be continued as is into the future. Had 11 does and fawns come in together my last hunt, numbers seem good. Its a great hunt, missed a nice buck, hopeful to get a future chance at him.
9 days	one	2 to 6 4 hours a day	No				Yes	seen lot of deer pass on a six point wait a big one seen two 8 point nice rack on them lots of birds	Yes	Yes	Yes	alot most of the time when I get there at 2 there was people just finish up with lunch or taking picture	keep doing what you are doing it working fine Thanks again
14	6	5hrs	No				Yes	I saw a hawk swoop down and try and catch a chipmunk, also saw a fox.	Yes	No	Yes	About half the time that I hunted.	Doesn't seem to be as many deer on property as I thought there would be. I only seen 3 doe one day otherwise all I saw was 3-4 different smaller bucks, one 7 pt. and 1 nice would've of been 8pt but broken off on one side. I would suggest to maybe only allow 1 buck taken with the 6pt restriction and not allow a doe to be shot until deer population comes back.
5 sits	Can't remember	Last 3 hours of the day.	No				No		Yes	No	Yes	Twice.	Do not allow people to leave stands. Make it so you must carry in your stand before each hunt & remove it (take it with you) after each hunt. It seemed any decent looking spot already had pre hung stands in it so all the good spots were effectively taken. Once a person hangs a stand most people feel as though they have staked "their" claim and that can cause confrontations if another person decides to hunt in the immediate area. Even though nobody would know if the hunter that put up a stand(s) has only hunted there once or not at all. Also make it so hunters must walk in only. No bicycles allowed.
12	4	7am-12 noon	No				No		Yes	Yes	No		I think the way it is being run very well
5 or 6	3	3 to 6 pm	No				No		Yes	No	Yes	Every day. They stayed on the trails	Allow less hunters out there.
6	4	200pm-dark	No				No		Yes	No	No		It would be nice if you could ride a peddle bike on the trails during the hunting season. That way if you are hunting the back corner you don't have walk 15 min. Just an idea. My spot was 22 min walk from the parking lot.
3	2	2pm to 7pm	No				No		Yes	No	Yes	Every day I hunted, but only at the parking area	No
15	4	4PM TO 6PM	No				No	Many Woodducks	Yes	No	No		
0	0	0	No				No		Yes	No	No		
0	0	0	No				No		Yes	Yes	Yes	2	let hunters trim one tree so they can hang a tree stand almost impossible to fine a tree
5	4	5:30-11am	No				No		Yes	No	Yes	First 2 days only	
3	0	2-5:30	No				No		Yes	No	Yes	50%	Have an online blog for hunters to communicate and an online map to mark stand locations
3	2	1 pm to 6 pm	No				No	Not as much wildlife, but did see a guy dragging an aluminum boat through the woods	Yes	No	Yes	Every time I was there	Perhaps limit the number of hunters allowed on the property. It might not seem like it, but 20 hunters is actually quite a few people for the amount of land. It was hard to find a space that someone wasn't already hunting.

10	4	2:00 to 5:30	No				No		Yes	No	Yes	usually one per visit	Love the program and thanks for making the opportunity available
2	1	3:30-5:30	No				Yes	Owl, possum both on the southwest side of the property	Yes	No	Yes	Mostly people having pictures taken by the old barn, even when I was not hunting there are usually people having pictures taken.	We love having the opportunity to hunt this property. It is always a wonderful experience.
10	8	2pm-dark	No				Yes	2 Eagles	Yes	No	Yes	Every time I was out	Food plots. I hardly saw any deer.
1	1	3 to 6 pm	No				No		Yes	No	No		

How many days did you hunt?	How many of the days were Saturdays or Sundays?	What hours did you hunt on an average day?	Were you successful?	If yes, was it a buck or doe?	Approx. Weight?	# points	Did you observe any interesting or unusual wildlife?	If so, please describe, including the location.	Were property lines well marked? Do you have any suggestions as to how the hunting program could be improved in the future?
5	0	2 PM until dark most days. 1 day from 7-11 AM	No				No		Yes	No	Yes	Every time. One evening I think I saw close to 30 mountain bikers, into the dark (flashlights on bikes).	Identify some time frames exclusive to hunters. It was a long hike to where I put my treestand and would have been very long drag out with a deer. The entrance off 74th Street (? I think that's the road #) was flooded and wouldn't allow access to where I wanted to hunt. That would have been a lot shorter of a hike.
9	4	3-6 pm	No				No		Yes	No	Yes	Almost every time out I saw non- hunters.	I would love to see the hunt period last a bit longer for each season.
10-12	4	3-5:30pm	No				Yes	Deer with a limp in one leg by Byron Rd.	Yes	No	Yes	Each time out I saw hikers and dog walkers.	Lots of does on the property. Maybe consider taking does.
2	2	3pm-7pm	No				No		Yes	No	Yes	Each visit I encountered people walking their dogs	The removal of the mandatory hunt meeting was a good idea.
8	4	3:00pm to 6:00pm	No				No		Yes	No	Yes	Very frequent. Bikers and Hikers. This is a very active park when the weather is nice.	I would like to see the drawing results earlier in July-August so if somebody wanted to get a doe permit they could use it during the Nov 15 -Dec 1 hunting. Also i seen signs that mountain bike trails were closed but they were still being used even with snow on the ground. The bike traffic spooked a lot of deer, maybe close off a few sections. There were times that the gates were not open until well after 7:00 am.
10	8	7 to 10:30 am 3 to 6 pm	Yes	Buck	165 lbs	8	No		Yes	No	Yes	Every hunt I encountered people walking, running or biking.	
11 days	6 days	7am-11am 3pm-6pm	Yes	Buck	120lbs	4	Yes	Lots of owls. We tried to look them up and came up with great horned owls was the closest to the Call they made.	No	No	No		It would have been nice to be able to shoot does during gun season. I didn't have a doe tag so I had to let them pass. It would be nice if you could purchase doe tags from the county kind of like the north Ottawa dune hunt does. Other than that lots of deer great opportunity.
11	6	7-10:30am or 3:30-5:30	No				Yes	Heard Great Horned Owls most of the times I went out. Saw one a couple times too. Located in the woods directly East of the 84th street parking lot.	No	No	Yes	About half the time.	
20	15	7 to 10 am	No				No		Yes	No	Yes	Once	
6	4	2 until dark	No				No		Yes	No	Yes	Every hunt	No
