

VIOLATION TYPES

Priority (P): The highest risk violations which are directly related to an increased risk of foodborne illness. Examples include improper handwashing, unsafe food temperatures.

Priority foundation (Pf): Violations that can create a high risk (Priority) violation. Examples include lack of soap at a handsink, no calibrated thermometer, no test strips to check sanitizer levels.

Core (C): Lower risk violations. Examples include general maintenance of facility (floors, walls, ceilings).

Correction Requirements: (P) and (Pf) violations must be corrected immediately when possible. Follow-up inspections occur to ensure all of these violations have been resolved if not corrected during the routine inspection. Open Core (C) violations are verified at the next routine inspection.

For a complete description of the violations cited at each licensed establishment click [HERE](#).

ROUTINE INSPECTIONS COMPLETED LAST WEEK

Unannounced inspections that occur on a set frequency, typically every six months.

ENFORCEMENT TYPES

When violations repeat at multiple inspections, or active managerial control is not demonstrated, enforcement may begin. The following steps of enforcement exist.

Civil Citations: Generally issued when a Core (C) Violation repeats at multiple routine inspections

Pre-Enforcement Step: Risk Control Plans (RCP)

Step 1: Compliance Conference

Step 2: Administrative Consultation

Step 3: Informal Hearing

Step 4: Formal Hearing

Consent Agreements: Alternative to formal hearings where establishment signs a legally binding agreement to correct violations or voluntarily close.

Action: *Describes whether an additional opportunity to comply was granted and is done at the discretion of the department.*

Proceed - Enforcement actions are being taken

Repeive - Enforcement is being postponed

Conditional - A repeive is being temporarily granted based on specific actions that must be taken immediately by the establishment
