

IMPROVING YOUR HEALTH

When You Have Hypertension, Arthritis, Depression or Other Chronic Conditions

Personal Action Toward Health, or PATH, is a complimentary six-week workshop designed to provide skills and tools to help people and their support persons living with a chronic condition such as arthritis, asthma, emphysema, hypertension, heart disease or depression live a healthier life.

This online workshop focuses on symptoms common to people with a variety of health conditions, with a goal to help participants become better self managers. Emphasis is placed on creating personal action plans and setting practical, achievable goals.

Topics discussed during this educational series include:

- healthy eating
- physical activity
- relaxation
- how to improve overall health and increase energy
- strategies to help deal with problems such as pain, fatigue and difficult emotions
- managing medications
- ways to communicate with health care providers and family members

These PATH virtual sessions allow you to participate online in the safety and convenience of your own home.
