

DUAL DIAGNOSIS: MENTAL HEALTH & SUBSTANCE USE DISORDERS

Intensive Outpatient Program (IOP) for Adults

Dr. Polley manages the Dual Diagnosis intensive outpatient program (IOP). This program uses evidence-based treatment approaches in combination with psychopharmacology to treat individuals with mental health and substance use concerns.

PROGRAM DETAILS

- Four (4) days per week, three (3) hours per day.
- Participants will receive case management support, therapeutic support with a Licensed Drug and Alcohol Counselor, and Medication Assisted Treatment. (Examples include; Suboxone, Naltrexone, and Narcan.)
- Evidence-based practices such as DBT and CBT skills are applied.
- This program is managed by Dr. Polley, MD Psychiatrist, who is trained in addiction medicine.
- For program information and referrals call 952-826-8475.
