

Learn about employment opportunities for youth and veterans in your community!

## Young adults and veterans need jobs - careers in the trades are plentiful.

In the next 10 to 15 years, 60% of the workforce in this industry will leave and the number of youth entering the industry is small. Attend our afternoon of networking and learn how you can help students connect with these professional and lucrative careers!

**Explore the Trades** and **Troops to Trades** help young people and veterans in the plumbing, heating/cooling and electrical (PHCE) service industry by building connections between the business community and organizations that work with youth and veterans.
