

## What We Do?

The Minnesota School Safety Center cares about the safety of our schools. The MnSSC provides trainings and resources to schools and districts to help them prepare, respond, mitigate and recover from all hazard emergencies.

MnSSC works with each school to provide individualized trainings to fit the school and district's needs.

Some of their flagship training and collaboration topics currently are:

- Facility/Safe School Assessments
- Emergency Response Plan Review
- De-escalation Training
- Crisis Communications

EMERGENCY  
PLAN

## Contact Us

The MnSSC is comprised of five individuals who each bring a diverse skill set to the team. All members are cross trained to provide a robust resource for all of their partners. Reach out to any MnSSC representative to discuss working with the team.

**MINNESOTA**  
SCHOOL SAFETY CENTER

## About Us

The Minnesota School Safety Center (MnSSC) is a legislatively funded program. MnSSC is housed in the Minnesota Department of Public Safety's Homeland Security and Emergency Management Division.

MnSSC works to serve as a **free** resource to all Minnesota public, private, charter and tribal (pre)k-12 schools. The MnSSC coordinates its planning, prevention, mitigation, response and recovery activities with federal, state and local partners.

MnSSC is a non-regulatory center. No reports are made nor shared regarding their working with individual Minnesota schools.

## Successful Team

Providing a safe, thriving environment for students to learn and staff to work is the foremost goal of any school setting. Creating a safe school environment which facilitates learning can be a challenging task. Successful school emergency planning requires school administrators, law enforcement personnel and emergency managers work together as a team.

MnSSC provides planning and prevention direction and interagency coordination through the creation and maintenance of guidance materials, best practices research, data analysis, and training for school and emergency response partners.
