

ANNOUNCING THE EFFECTIVE END TO VETERAN HOMELESSNESS IN MINNESOTA

Minnesota is the 5th state in the nation to functionally end homelessness for veterans

Homelessness is a multifactorial issue requiring a collaborative approach to identify, address, and prevent. Thanks to the multi-agency, legislative, and community effort, a system has now been created so that veteran homelessness is rare, brief, and non-recurring. This is the latest of the many wins for veterans achieved during the Walz-Flanagan administration:
