

FIELD SAFETY: *Working Outdoors*

Online Field Safety Training

Online Field Safety: Working Outdoors (62-WSE-E20)

Course Description:

This online course covers basic safety concepts that apply to personnel working in field locations for Hennepin County. Upon completion of this course, you will be able to successfully plan “safe” field work, recognize common field hazards, identify ways to protect yourself and locate and utilize available equipment and resources.

Course Length: Approximately 30 minutes.

To access the course, log in to your APEX account and click on My Learning. Browse courses listed under Workplace Safety or use the **search** feature with keywords “field safety.”

To earn credit for taking the course, you will need to complete a short quiz.

Upcoming Online Safety Training:

Next in the Field Safety series is Working within a Client’s Home (62-WSE-E21)
This course highlights the importance of personal safety. It will be available in July 2013.
