Dear Attorney General Ellison,

I write to you today to ask you to stand up for the individual liberties of all Minnesotans. President Biden's recent announcement that he intends to impose mandates on businesses to require vaccinations is a flagrant violation of our constitution. Vaccinations are a personal medical decision that should only be made between a patient and doctor. Furthermore, neither the President of the United States nor our federal government has the authority under our constitution to dictate any vaccine requirements to private employers. This is a flagrant abuse of executive power.

As Attorney General, you took an oath to defend the constitutional rights of all Minnesotans. I strongly urge you to honor that commitment and stand up for the individual rights and freedoms of the people of our great state to make their own decisions regarding the COVID-19 vaccine.

Sincerely,

Rep. Mary Franson
