

MnDOT supported Program: COVID-19 Positive Client Transportation

October 14, 2020

Greetings:

MnDOT, Minnesota Council on Transportation Access and Minnesota Department of Health in collaboration are providing COVID-19 positive client transportation for the 80 counties in Greater Minnesota. MnDOT Office of Transit and Active Transportation was awarded \$750,000 COVID-19 Relief Funds on August 18, 2020.

On October 7, 2020 MnDOT awarded the COVID-19 Positive Client Transportation grant contract to:

Semcac Transportation
400 Commerce Dr. SE
Kasson MN 55944
Main: (507) 634-4340
Contact: Jim Wolter

Effective immediately and pending availability of providers in your area, COVID-19 Positive Client Transportation service is now up and running.

This service is for non-emergency transportation of COVID-19 positive individuals or individuals suspected to be COVID-19 positive. The transportation is for medical services such as COVID-19 testing, medical appointments, and medication.

The only limitations are the trip must be non-emergency, to or from medical services, and originate in Minnesota. The individual pays nothing as the cost is covered by the COVID-19 Relief Funds.

Clients of local public health, medical clinics, hospitals, or other medical providers seeing COVID-19 positive clients can be made aware of the availability of non-emergency transportation services.

Providers or individuals (who are COVID-19 positive or suspected to be COVID-19 positive) can contact Semcac Transportation at 1 (800) 528-7622, option 3 to request a ride.
